Professional Web Developer having 3.5+ years of experience in the IT domain. Strong experience in development of web applications for using HTML, CSS, JavaScript, JQuery, AJAX, JSON. Excellent knowledge and experience with SQL Server and Php framework Laravel. I can also develop a profess

## EXPERIENCE

### Akodes It Solutions

- I had the privilege to work at Akodes IT Solutions as a full-stack Laravel developer for one year. During my tenure, I played a pivotal role in the development of various projects, which included web applications, admin panels, APIs, and websites. My responsibilities involved designing and implementing robust and efficient solutions, ensuring seamless communication between front-end and back-end components, and delivering high-quality software. I actively participated in the entire software development lifecycle user interface and user experience (UI/UX)

### Automation Guru

I am currently working as a full-stack Laravel developer at Automation Guru. In this role, I continue to create and maintain various web applications, admin panels, mobile applications, APIs, and websites. My daily tasks involve crafting efficient solutions, ensuring seamless interaction between front-end and back-end components, and delivering high-quality software products.
